

Hello!

Congratulations on starting the next chapter of your math career! Calculus is the start of some advanced math ideas and theorems. The content in this class is exciting, applicable, and challenging!

For summer work, you should join my DeltaMath class, titled "AP Calculus BC Summer Work."

Please follow the steps below to access your work.:

**Note: Summer work is DUE: FRIDAY, AUGUST 20, 2021.**

**If you don't have a Delta Math account,**

1. Go to [www.deltamath.com](http://www.deltamath.com)
2. It will ask you to create an account. *(Note: if you've used Delta Math in the past, you can just log in and add me as a teacher I'll put directions down below for this)*
3. **Enter the teacher code below**

Teacher Code: 926322

4. Select "AP Calculus BC Summer Work" and fill out personal info.
5. Login into your account and Complete the assignment (BC Calculus AP Summer Assignment). There should be 44 problems here.
6. When you get a problem right, you can move onto the next section by clicking the "next section" button

**If you already have a delta math account from a previous teacher**

1. Login to your account (reset your password if you need to)
2. Click on Tools, and then manage login and courses
3. Click on "add teacher or access code"
4. Enter the Teacher code below:

Teacher Code: 926322

(The rest of the steps should be the same as above now!)
