

# Mr. Greif

## Virginia Tech Athletic Director

<b>A Learning Experience that Changed Me:</b>
Shortly after moving to Colorado, I directed a summer camp in Commerce City that served a variety low income children. It was a humbling experience that allowed me to truly gain insight into the inequalities that exist in our society, and the impact that several caring adults can have on a child's life.
<b>My Favorite Book:</b>
<u>The Power of One</u>
<b>My Hobbies and Interests:</b>
Mountain Biking, Running, Cooking, and Skiing
<b>Prior Experience in Education:</b>
Prior to moving to Denver in 2008 I was an adjunct professor at Applachian State University teaching a variety of courses in their health, leisure, and exercise science department. After relocating to Denver, I started working with the SportXcel Youth Fitness Foundation as the Director of Physical Education. As director I implemented a physical education quality improvement grant that trained over 20 physical education teachers in DPS to implement a fitness-based physical education program. I have also delivered a variety of fitness-based PE programs at a number of charter schools in the Denver Metro Area.
<b>Something Super-Unique About Me:</b>
I was homeschooled until 5th Grade, and grew up in the middle of a 100 acres with a mile long driveway.
<b>Why I am Excited About Working at DSST:</b>
I am excited about working at DSST because I have the opportunity to develop a fitness-based physical education program that will directly improve the academic performance of DSST students.
