

Ms. Altschuler

University of Maryland

Social Worker

A Learning Experience that Changed Me:

Throughout college I volunteered at a Therapeutic Riding Center. I gained experience working with animals to provide therapeutic treatment to individuals with a spectrum of disabilities. This experience taught me how powerful the animal, human connection is and how therapy can manifest in many different ways.

My Favorite Book:

Ender's Shadow by Orson Scott Card

My Hobbies and Interests:

I love baking things from scratch, getting outdoors for hiking and camping, playing tennis, and spending quality time with friends and family.

Prior Experience in Education:

Last year I worked part-time as a school social work intern at Arvada K-8 in Jefferson County.

Something Super-Unique About Me:

My mother's side of the family is originally from North Korea. When she was 7 years old her family fled to South Korea. I stay connected to this part of my culture primarily through food!

Why I am Excited About Working at DSST:

I am so excited to work at DSST, as DSST emphasizes building positive, genuine relationships between staff, students, and families to create a collaborative and connected community that holistically supports students.
