6th Grade  
Dean

## **A Learning Experience that Changed Me:**

My high school Chemistry and AP Environmental science teacher completely changed my perspective and attitude regarding science, without her I would not be the teacher I am today!

## **My Favorite Book:**

To Kill A Mockingbird by Harper Lee

## **My Hobbies and Interests:**

I love to do just about anything outdoors whether it's hiking, kayaking, or camping with friends.

## **Prior Experience in Education:**

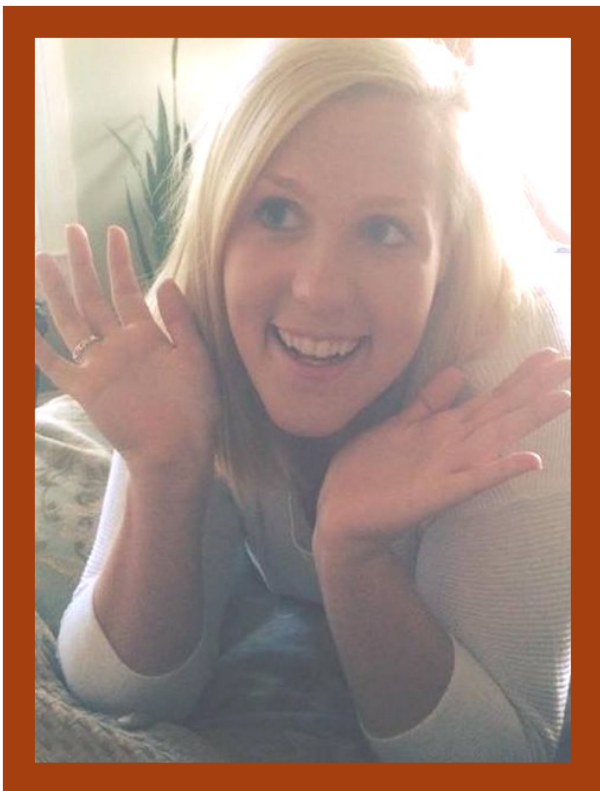

Before joining DSST, I taught sixth grade science and social studies in High Point, North Carolina.

## **Something Super-Unique About Me:**

I attended the first ever Pre-Service Teacher Academy at the Space and Rocket Center in Huntsville, AL. My fellow teachers and I were astronauts for a week and explored flight simulators, space missions, centrifugal forces and even scuba diving.

## **Why I am Excited About Working at DSST:**

The emphasis on people both as individuals and as members of the community drew me to DSST. I am so excited to serve as a teacher, leader, and advisor in our incredibly diverse, passionate, and engaged community.

## 6o Grado Ciencias

### **Una experiencia de aprendizaje que me cambio:**

Mi maestra de Química y AP Ciencias Medioambientes en la prepa completamente cambiaron mi perspectiva y actitud acerca de ciencias, sin ella no fuera la mearra que soy hoy.

### **Mi libro favorito:**

To Kill A Mockingbird por Harper Lee

### **Mis aficiones y intereses:**

Me encanta hacer casi cualquier cosa afuera, si es caminando, kayak, alpinismo, o campando con amigos. Me gusta especialmente ir de aventuras con mi perrita, Delilah.

### **Experiencia anterior en educación:**

Ensene ciencias y ciencias sociales en High Point, North Carolina

### **Algo súper único sobre mi:**

Atendí la Academia de Maestros en el Centro de Espacio y Cohetes en Huntsville, AL con unos de mis "amigos maestros" después del colegio. Fuimos astronautas por una semana y exploramos simulaciones de vuelo, misiones de espacio, fuerzas centrifugas y submarinismo.

### **Porque estoy emocionada sobre trabajar en DSST:**

La misión y visión de DSST coincide con mis filosofías personales para enseñar, y me escanda STEM!
