

A Learning Experience that Changed Me:

When I was in high school, my AP Biology class took a field study trip to Utah where we went rafting, rappelling, and camping for a week. We also learned about water science and geology. This was physically and mentally challenging at the time, but it was also one of the most exciting and fun weeks of my life.

My Favorite Book:

"Tunnel in the Sky" by Robert Heinlein

My Hobbies and Interests:

I play several musical instruments, and most recently have been getting back into playing the drums! I also enjoy walking my dog, playing board games, and travelling with my husband.

Prior Experience in Education:

I worked in Byers Middle School the 2018-2019 school year, and this will be my first year in the high school. Before Byers, I tutored for the I Have a Dream Foundation.

Something Super-Unique About Me:

I've lived in Colorado my whole life. I grew up in Colorado Springs, lived in Boulder for 4 years, and now I'm here in Denver.

Why I am Excited About Working at DSST:

I love being a part of the DSST community. The people who work here are so committed to our mission and to the success of our students. This is truly an incredible place to work.
