Elmhurst  
College

# Math

**A Learning Experience that Changed Me:**

A learning experience was moving from Cincinnati to Denver. It was super challenging being away from friends and family, but I've learned a lot about myself. I found a passion for teaching that I didn't know I had. I've also been able to successfully push myself beyond my limits and accomplish many goals.

**My Favorite Book:**

The Great Gatsby by F. Scott Fitzgerald

**My Hobbies and Interests:**

Soccer, Hiking, Rock Climbing, Camping, Traveling, Adventures!

**Prior Experience in Education:**

I attended Elmhurst College where I obtained my Bachelor's in Mathematics and a teaching license. From there I taught four years of high school math in Cincinnati. After leaving Cincinnati, I moved to Denver where I taught middle school math.

**Something Super-Unique About Me:**

I have attempted 17 fourteeners and have successfully summited 15 fourteeners!

**Why I am Excited About Working at DSST:**

I'm so excited to teach math to such brilliant students! I'm ready for my students and myself to push each other to be phenomenal mathematicians through discovery!
